Course Work

Discussion Question Preparations

- Five discussion question preparations are required. Each preparation should contain a one-sentence question from a reading we are discussing in class. The preparation should also contain a four to six sentence paragraph explaining why you are raising that question. Samples of discussion question preparations can be found on D2L.
- The question may be remedial, seeking an account of an important claim or argument in the reading that you could not follow. Or the question could be more critical in nature, alluding to a weakness in the paper. Or the question could be probing, identifying an issue that is raised by the reading or a possible implication of the reading.
- Each discussion question preparation must be handed in before we start discussing an article. Please hand in a hard copy of the preparation at the beginning of class when we start a reading. No preparations will be accepted after we start discussing an article.
- We may only read eight articles in the class. So you should start writing and submitting your discussion preparations right away.
- You can hand in more than five discussion question preparations. For each additional preparation beyond five, your lowest grade for a preparation will be replaced with a higher additional preparation grade.

Tests

- There will be two in-class tests and NO Registrar-scheduled final exam.
- Test questions will be drawn from our readings and class discussion.

Term Paper

- A term paper will be due at the end of the semester. A set of topics for the term paper will be assigned. Topics will be distributed at least two weeks before the paper is due. The term paper should be no longer than 2000 words (approximately 6 double spaced pages.) Detailed instructions for the paper will be distributed later in the term.
